

CONNECTING & INSULATION ELEMENTS

HEAVY-DUTY HOSE CLAMP

Hose Clamp with Bolts

Material

- Clamp band: galvanized steel
- Screw: galvanized steel

Applications

- Special hose clamp for securing medium and heavy-duty hoses to connectors on mobile and stationary units

Properties

- Extremely robust
- Band width .70" to 1.0"
- Band thickness .023" to .063"

Construction

- Large strip hose clamp with fastening lug

Standard Production

- Diameter: 1.25" to 16"

Available on Request

- Stainless steel
- Other clamping ranges

Clamping Range Dia (in.)	Width x Thickness (in.)	Product Code
1.25" to 16"	.80" x .03" to 1.00" x .04"	621-032-115 to 621-500-115

The heavy-duty bolted clamp is suitable for the mounting of medium and heavy weight spiral hose. For the mounting of lightweight hose, we recommend the clamp with worm-gear drive.
